

Citywide Distribution of ABC Locations

Roughly seven percent of the 81,754 ABC licenses in the state are located within the City of Los Angeles. The total number of licensed premises conducting business within the City varies greatly on year-to-year basis. As population increases, so does the availability of ABC licenses. Approximately 200 new ABC licenses (100 on-sale and 100 off-sale), many destined for the City, are awarded yearly to the County of Los Angeles. Other factors that affect ABC license distribution include: transfers, volunteer surrenders and revocations.

In order to assist vice unit personnel and other interested parties in obtaining an overall perspective of ABC license distribution within the City of Los Angeles; Operation ABC has updated the Area license census count.
