General. All firearms coming into the custody of the Department shall be classified as evidence.

Booking Firearms – Officer’s Responsibilities. An officer booking a firearm into Department custody shall ensure that the firearm is unloaded and safe for handling. Employees unfamiliar with the unloading or securing of a firearm shall contact the Firearms Analysis Unit, Forensic Science Division (FSD), for advice.
Additionally, if physical evidence such as DNA or latent prints is important and there is a potential for damaging such evidence during the unloading process, FSD shall be requested to respond for assistance.

Note: The package of a firearm that requires latent print processing or touch DNA analysis shall be clearly marked “Hold for Prints” or “Hold for Touch DNA” and booked into a Property Division facility, Area property room, or Area property room interim storage if the property room is closed. If an investigating officer determines that only fingerprint processing is required, a telephonic request shall be made to Technical Investigation Division (TID) via the LPU Incident Tracking System. If an investigating officer determines that only touch DNA analysis is required, a telephonic request for the analysis shall be made to FSD. If both fingerprint processing and touch DNA analysis are required, mark the appropriate Analyzed Evidence Envelope with “Hold for Prints and Touch DNA” and notify both TID and FSD. The investigation officer will be contacted by TID and/or FSD to determine in which order to analyze the item.

Note: During off-hours and weekends, FSD firearms examiners may be contacted for advice or response through the Department Operations Center.

In all cases, the Firearms Analysis Unit shall be contacted to examine and clear the following types of hazardous weapons prior to booking:

* Muzzle loaders;
* Cap-and-ball black powder weapons; and,
* Jammed or inoperative weapons, including weapons with rounds that cannot be extracted.

When possible, weapons shall be broken down or otherwise modified and packaged to allow easy visual examination and assurance they are unloaded.

Upon ensuring the firearm is unloaded and safe for handling, the booking employee shall:

* Complete a Property Report, Form 10.01.00;

Note: The name and serial number of the FSD firearms examiner, along with the date and time a hazardous weapon was rendered safe for handling, shall be documented in the Property Report. For firearms contaminated with diseased or infectious bodily fluids or for other specially packaged or sealed firearms, documentation of the weapons clearing shall be included in the Property Report.

* Evidence - items which are or may be related to a crime, or which may either implicate or exonerate a person; or,
* Non-evidence - property other than evidence or excess personal property; or,
* Excess (non-evidentiary) Personal Property - personal property of an arrestee, which cannot be packaged in an inmate’s property package or purse.

4/510.10 BOOKING EVIDENCE AND NON-EVIDENCE — GENERAL. The employee seizing or taking custody of evidence shall ensure it is properly booked without unnecessary delay.

All property which is to be booked shall be inventoried and listed on the Property Report, Form 10.01.00. The employee seizing or taking custody of a closed container shall open the container prior to booking and conduct an inventory search if its contents cannot be determined from examining its exterior.

Evidence may only be booked by a sworn employee, a Police Service Representative in the course of his or her official duties, a detention officer assigned to Custody Services Division, or a civilian employee conducting specialized investigative work. Responsibility for booking evidence may be assumed by the detective or the civilian investigative specialist at the scene.

Employees shall book only the quantities of evidence necessary for case prosecution. In instances when the rightful ownership of property can be readily determined, and case prosecution shall not be jeopardized, the property shall be returned to the owner. When appropriate, employees shall utilize photographs in lieu of actual evidence.

Note: If there is a question as to whether or not photographs shall suffice in lieu of actual evidence items, the booking employee should seek the advice of a supervisor or the concerned detective.

Non-evidence shall not be booked into a Department storage facility unless circumstances necessitate booking of the property.

The employee seizing or taking custody of property shall issue a Receipt for Property Taken into Custody, Form 10.10.00 (duplicate copy), to the person relieved of the property (Department Manual Section 4/645.20).

The original Receipt for Property Taken into Custody shall be included as a page of the original Property Report; Release from Custody (RFC) Report Continuation, Form 05.02.08; or Arrest Report, Form 05.02.00, when evidence to be booked is listed.

Evidence and non-evidence shall not be stored in the personal possession of any employee, except certain forgery related evidence (Department Manual Section 4/570.20). One copy of the Property Report, or the RFC Report Continuation, or Arrest Report, shall accompany the property when booked.

Exception: Two copies shall accompany narcotics or firearm bookings.

It is not necessary to issue a Receipt for Property Taken into Custody for blood and urine samples or biological smear specimens taken from an arrestee or the victim of a crime, nor is it necessary to include these items on a Receipt for Property Taken into Custody form used to list other property taken from an arrestee or victim.

When the finding of non-evidence is reported and the finder refuses to relinquish custody of the property to the Department, the interviewing employee shall complete a Property Report, and make a notation on the report that the property is in the possession of the finder.

Note: The assigned detectives (Department Manual Sections 4/510.10 and 4/790) shall ensure that the finder has complied with laws governing found property (Civil Code 1020, 2080.3; Penal Code 485).

The employee booking property shall, if circumstances permit, check identifiable property against the Automated Property System and provide information regarding any reported stolen property in the reports. The booking employee shall notify each detective division handling a case involving the booked property by completing the "Extra Copy To" portion of the reports to ensure notification and report distribution to each detective division.

Note: When an employee recovers property from an area containing more than one person (e.g., cell, holding tank), the employee shall ensure that the detective division responsible for each arrestee is notified using the above-referenced procedure.

Investigative officers within the booking employee’s Area should confer with any other entity handling a case involving the booked property to determine responsibility for disposition of the property.

Note: Booking employees shall continue to check all firearms against the Automated Firearms System (Department Manual Section 4/540.30) and attach a copy of the printout to the appropriate report.

The watch commander shall cause the evidence to be transferred to Central or Valley Property Section (Department Manual Section 4/510.12).

4/520.10 EVIDENCE BOOKED TO ARRESTEE.
When evidence is known to be related to previously booked evidence, it shall be booked to the same person under the same DR number as originally reported. Item numbers shall start with the next sequential number from the original report. If not related to previously booked evidence, evidence shall be booked to the arrestee whether seized at the time of arrest or subsequent thereto. When two or more persons are arrested at the same time and place, all evidence shall be booked to one arrestee whose name shall appear in the space provided on the Property Report, Form 10.01.00, or Release from Custody (RFC) Report Continuation, Form 05.02.08. Names and information regarding other arrestees and evidence shall appear in the narrative of the report. The report shall designate from whom the various items were seized.

If no arrest has been made, the evidence shall be booked to the victim.

If there is neither an arrestee nor a victim, evidence shall be booked to the owner or possessor of the evidence.

If there is neither an arrestee, victim, owner, nor possessor associated with the evidence, it shall be booked to the Department employee booking the property.

4/216.15 EVIDENCE REPORT COMBINED WITH ARREST REPORT. Evidence booked in conjunction with an arrest may be reported as follows:

If only one arrestee, no firearm booked, and no more than two items of evidence, the face sheet of the Arrest Report, Form 05.02.00, is the evidence report. In this instance, the reporting officer shall:

* Check the "Evidence" checkbox at top of the report;
* Complete the "Combined Evidence Report" Section on the report;
* Enter details relating to the evidence in the narrative; and,
* Forward a copy of the Arrest Report face sheet with the evidence.

If more than one arrestee, a firearm is booked, or more than two items of evidence, the Property Report, Form 10.01.00, stapled to the Arrest Report face sheet is the evidence report. In this instance, the reporting officer shall:

* Check the "Combined Evidence" checkbox at the top of the Arrest Report face sheet;

Note: On multiple arrests, this checkbox is checked on all Arrest Report face sheets, and the name of the arrestee to whom the evidence is booked is entered immediately below that checkbox on all Arrest Report face sheets.

* Complete the shaded areas of the Property Report, including details and listing of the evidence;

The item numbering shall start with the next sequential number from the original report;
* Reporting additional license plates. One plate, or set of plates, may be reported using the combined procedure. Additional plates require separate Property Reports with separate DR numbers (Department Manual Section 5/040.56); and,
* The booking employee's supervisor determines that use of a separate complete Property Report would be a more expedient means of booking the evidence under the given circumstances.

DR Number. A DR number is required for an Arrest Report on which booked evidence is listed.

Completion - Private Person's Arrest. When evidence is booked under the combined procedure, and the arrest is by a private person, the name, serial number, division and detail of the officer booking the evidence shall be entered in the space provided on the Arrest Report face sheet; i.e., the second line of "Reporting Officer(s)."

* The Evidence is related to previously booked evidence;

Note: In this case, a separate Property Report shall be completed in its entirety. The original Division of Records (DR) number shall be used, and the items shall be numbered starting with the next sequential item number.

* The evidence is booked to other than the primary victim of the IR (i.e., the victim listed at the top of the IR);
* Reporting additional license plates; and/or,

Note: One plate, or set of plates, may be reported using the combined procedure. Each additional plate, or set of plates, requires a separate report with a separate DR number (Department Manual Section 5/040.56).

* The booking employee's supervisor determines that the use of a separate complete Property Report would be a more expedient means of booking the evidence under the given circumstances.

4/535.10 PACKAGING ALCOHOLIC BEVERAGES.
A container of an alcoholic beverage shall be securely capped and sealed with a completed sealed evidence label. If the container cannot be capped, a sample shall be sealed in an approved evidence bottle, and booked with the original container.

Live ammunition that is not to be submitted to FSD shall be placed in a coin envelope and packaged separate from the gun.

The words "Live Ammo" shall be printed in red letters on the outside of a package containing live ammunition.

4/530.20 MARKING EXPENDED AMMUNITION.
When its evidentiary value would not be affected, expended ammunition shall be marked as follows:

* Cartridge case - on the inside, or if not practicable, on the outside near the opened end; and,
* Bullet - on the base.

4/530.30 MARKING OF BOOKED DOCUMENTS.
The Division of Records (DR) number shall be the only marking placed on a forged/fraudulent document or invoice by the reporting employee. It shall be printed in ink or typed as near as practicable to the upper right corner of the face without interfering with markings already present.
If this is not practicable, place the document(s) in a manila envelope, and print the DR number on the upper right corner of the envelope and attach the documents unfolded and paper-clipped to the back of the completed report.
