Ask Before you touch!

Asking for consent is a healthy, normal, and a necessary part of everyday interactions.

Always choose to respect the personal and emotional boundaries of others.

Think about how your actions might make others feel and ask questions if they don’t know.

It is important to know how to ask for consent — whether it’s the first time or a regular partner.

All of us can practice consent in our lives by asking permission and responding appropriately to your partners response.

When it comes to sex, it’s important that everyone is on the same page, and the best way to do that is to be direct and ask.

18 is the age of consent in California or else it’s a crime.
