

**Overview of May 2011 Activities**  
**June 8, 2011**

The Los Angeles Police Department Sexual Assault Evidence Kits (SAEK) Progress Report provides significant information about the status of the SAEK backlog elimination project. The Serology/DNA unit is also responsible for processing and conducting analysis for biological evidence unrelated to sexual assaults, as well as additional evidence related to sexual assaults. This report is a reflection of the productivity associated with the SAEKs.

The May Progress Report shows a total of 635 Remaining Untested Kits. Of the 635 Remaining Untested Kits, 457 are currently in progress. The number of kits not yet submitted to a contract laboratory for testing is 178. None of the remaining untested kits are from the Historical Backlog, which is now zero. There was an additional 106 new SAEK's collected in April.

**All new requests for analysis of a sexual assault kit are immediately put into the process of assigning it to an SID criminalist for analysis (in-house or outsourced). There is no backlog of unassigned SAEK requests for analysis of an SAEK at SID.**

The Report shows a total of 156 Pending Technical Reviews. All data from the analysis of SAEK's by contract labs is put into the technical review process immediately upon return of the data.
