Message from the Chief of Police
As Chief of the Los Angeles Police Department (LAPD), it gives me great pleasure to share with you the next two years of our Strategic Plan, LAPD in 2020. We revealed the plan’s first two fiscal years, 2015-2017, in July 2015, as a call for a stronger, more effective and more collaborative LAPD of the future.

The plan is a five-year guide for our Department, featuring ten goals to direct our organization as we strive to reduce crime, partner with the community and continue to maximize technology to our benefit. In these next two fiscal years, 2017-2019, we will continue to drive our ten goals, with an added emphasis on removing more guns from the streets and assisting crime victims.

Our plan continues to reflect Mayor Garcetti’s priority outcomes and details how our organization will do our part to make Los Angeles a safe, prosperous, livable, sustainable and well-run city. Because our primary role is crime reduction, we remain committed to making Los Angeles the safest big city in America by 2020.

CHARLIE BECK
Chief of Police
TABLE OF CONTENTS

Introduction 1
Goals 2
Reduce Crime and Victimization 3
Build Community Trust 6
Improve Traffic Safety 11
Emphasize Preparedness and Counter-Terrorism 14
Strengthen the Workforce 17
Promote Employee Wellness 19
Mitigate Risk 21
Maximize Sustainability 23
Drive Accountability 26
Leverage Technology 29
The Los Angeles Police Department (LAPD) remains committed to reducing crime and victimization as well as building community trust and partnerships. Through innovative prevention programs and community outreach, our Department will remain a national leader in our mission to become the safest big city in America by 2020.

As with any organization, it is imperative that management create a comprehensive plan to clearly communicate its vision for its employees and stakeholders. The LAPD created a five-year Strategic Plan, LAPD in 2020. This blueprint outlines a path to construct a more effective and progressive LAPD of the future. It is a proactive guide to help the Department improve its service to the diverse communities it serves. The plan also corresponds with priorities set forth by Mayor Garcetti, pledging to make Los Angeles a safe, prosperous, livable and sustainable, well-run city. When initially released in July 2015, the plan included details for fiscal years 2015-17. Ten goals ranging from crime reduction, building community trust, maximizing sustainability and leveraging technology shaped the strategic plan which included specific milestones delineating innovative programs and approaches to modern-day policing. After evaluating current trends, community needs and organizational input, the Department’s Strategic Planning Section has compiled the next two years of LAPD in 2020, covering fiscal years 2017-19.

The newest years of the Strategic Plan will feature the original 10 goals communicated early on in LAPD in 2020. Stakeholders will find new milestones designed to move the organization forward. The Department implemented a record number of innovative programs and strategies in the plan’s first two years, and in the next two years it will evaluate the effectiveness of these platforms to analyze their efficacy. Additionally, the Department will devote an increased focus to removing guns from the streets and assisting the victims of violent crime.

Successful planning allows for sudden transitions and unexpected turns. LAPD in 2020 remains a dynamic, flexible document that can be altered to reflect current trends and issues, as well as an evolving community. While the organization made great strides in the first two years of its five-year plan, it is critical that the Department maintain its momentum to accomplish the goals and milestones within the plan. Implemented systems will measure results, improve efficiency and provide overall accountability. LAPD in 2020 is the Department’s pledge to remain at the forefront of best practices to ensure we are providing the highest level of service to the citizens of Los Angeles.
STRATEGIC GOALS
LAPD’s Action Plan to 2020

1. Reduce Crime and Victimization
2. Build Community Trust
3. Improve Traffic Safety
4. Emphasize Preparedness and Counter-Terrorism
5. Strengthen the Workforce
6. Promote Employee Wellness
7. Mitigate Risk
8. Maximize Sustainability
9. Drive Accountability
10. Leverage Technology
STRATEGIC GOAL 1
Reduce Crime and Victimization

The reduction of crime and victimization remains a top priority for the City and the LAPD. We are committed to a rigorous and disciplined focus of fulfilling our ambitious strategic vision of making Los Angeles the safest big city in America by 2020. The Department will continue to strengthen its partnerships with external law enforcement agencies to develop a victim-centric approach and implement innovative programs aimed at removing guns from the streets. We will expand our data-driven strategies to create visual mapping missions to suppress crime while keeping the communities of Los Angeles safe. Through our crime reduction strategies, the LAPD will continue its leadership as a national model for innovations in crime reduction and prevention programs. The Department is committed to fostering safe, vibrant, and healthy neighborhoods for all community members.

**Initiative A** | **Prioritize Community-Focused Crime Prevention Programs**

1. Utilize partnerships for gun safety and crime reduction.

- Develop the Crime Gun-Intelligence Center (CGIC) within Forensic Science Division to process gun-related crimes through the National Integrated Ballistics Information Network in an effort to identify perpetrators, repeat offenders, connect crimes, and increase prosecution/conviction of gun-related offenses.

- Develop a gun safety campaign in coordination with Public Communications Group (PCG).

- Incorporate Shot Spotter in 77th Street to assist in collection of gun-related evidence that can be processed in the CGIC and increase the connection of cases and apprehension of suspects utilizing guns.

- Continue to develop safety campaigns focused on crime reduction.

- Expand community safety and crime reduction program to additional stakeholders.

- Enhance Community Relationship Division’s (CRD) liaison program and develop forums for community safety and crime reduction program (LAPD Safe Place).

</tbody>
</table>
### Initiative B | Enhance Crime Suppression Capability (cont)

2. Utilize and leverage anchor points as a crime suppression strategy.
   - Continue to utilize anchor points with an emphasis on areas of gun-related violence. Expand to the remainder of Operations-Central Bureau (OCB) and Operations-Valley Bureau (OVB).
   - Evaluate and expand anchor points to Operations-West Bureau (OWB).

3. Develop partnerships for gun-related prosecution.
   - Partner with federal prosecutors to increase federal prosecution of gun-related offenses in Operations-South Bureau (OSB), Newton, Hollenbeck, Rampart, and Mission. Track success rate of prosecution.
   - Evaluate the effectiveness of the partnership and expand to additional areas. Continue to track success rate of prosecution.

4. Develop CSOC 2.0.
   - Develop strategies for Metropolitan Division to more effectively apprehend chronic offenders and remove guns from the streets.
   - Measure the effectiveness of Metropolitan Division strategies on violent crime.

### Initiative C | Expand Data-Driven Crime Prevention Programs

1. Utilize Operation Los Angeles Strategic Extraction and Restoration (LASER) program to reduce gun-related crime.
   - Utilize gun-centric mission mapping in Operations-South Bureau and Operations-Central Bureau to reduce the number of gun-related crimes and measure results.
   - Expand gun-centric mission mapping to Operations-Valley Bureau. Continue to measure and evaluate the reduction of gun-related crimes.

2. Expand predictive policing (PredPol) program to prevent property crimes.
   - Implement PredPol to remaining Areas to reduce property crime, measuring dosage and crime reduction weekly.
   - Implement PredPol in traffic divisions to reduce traffic-related accidents and injuries, measuring dosage and accident reduction weekly.

3. Utilize the Palantir Dashboard for data-driven focus on crime.
   - Enhance effectiveness and efficiency of Palantir programs and introduce new applications including Clue Management.
   - Continue to enhance officer capabilities through mobile applications such as the chronic offender tool-kit, mobile applications for Metro Transit, and the officer safety and readiness dashboard.
   - Introduce mission control, measure mission creation and usage at CompStat.
   - Maximize utilization of mission control and development of crime suppression missions.
STRATEGIC GOAL 2
Build Community Trust

Policing strategies that focus solely on pro-active suppression may drive down crime, but often leave neighborhoods feeling overpoliced, singled out, and unnerved. The legitimacy of a police department is in part dependent on a community’s trust in its police officers. Our ability to fight crime is enriched through the development of meaningful and sustained relationships formed with the communities we serve. To successfully drive public safety, we must reach beyond incident response times and crime reduction capabilities to form relationship-based policing. We will rigorously gauge public trust and satisfaction through surveys and enhance community outreach efforts to ensure we are providing the highest quality service. Valuable feedback gained can be used to make critical adjustments in bolstering community trust and confidence. Further, we remain committed to the development of programs for all community members young and old, as well as community-based organizations, to consistently improve understanding, communication, and relationships between the Department and community.

Initiative A | Expand Public Trust and Confidence Measures

1. Train Department sworn personnel in Implicit Bias and its impact on community policing.
   - Provide Implicit Bias Training to 100 officers at each session for a total of 100 sessions to train all 10,000 sworn members of the Department.
   - Train sworn personnel in Police Sciences and Leadership Training 1 (PSL1), an 84-hour course encompassing leadership and investigative/field operational skills necessary to solve long-term community problems while building public trust.
   - Develop and adapt the curriculum for Police Sciences and Leadership Training 2 (PSL2) to include scenarios, perishable skills, procedural justice, and cardiopulmonary resuscitation, and start PSL2 training.
   - Continue with training sessions for new hires and ensure curriculum is current.
   - Continue to train sworn personnel in PSL1.
   - Continue with PSL2, aiming to train officers two years after their completion of PSL1.
Initiative A | Expand Public Trust and Confidence Measures (cont)

2. Expand the Force Option Simulator Outreach Program by making it mobile and analyze the public's level of trust in the Department.
   - Identify a permanent transportation means for the Force Option Simulator.
   - Evaluate the "Community Interactive Experience" to gauge the public's perception of the Department via community questionnaires, surveys, etc.
   - Expand the mobile Force Option Simulator at the Community Police Academy Level II and other events.
   - Analyze response data to improve the "Community Interactive Experience" and develop parallel participation training geared toward specific audiences.
   - CRD
   - CPPG

3. Continue to measure and improve community confidence and customer satisfaction to capture priorities, sentiment, and levels of service quality.
   - Expand measuring capabilities of public trust, satisfaction, and fear of crime among community members.
   - Explore conducting surveys through digital platforms.
   - Continue to measure public trust and use the data to develop effective strategies that positively impact the Department and the communities it serves.
   - CRD
   - CPPG

4. Work with the Mayor’s Office to address long-range needs of repeat offenders.
   - Develop a working group with the Mayor’s Office of Re-entry and other stakeholders to construct a framework for a “Second Chance Offender” program.
   - Leverage relationships with businesses to locate a job opportunity for "Second Chance Offender."
   - Consult with District and City Attorneys on the legalities of a diversion program that dismisses charges for repeat offenders upon successful program completion.
   - Seek feedback from the Department of Probation and develop system to track success of participants in re-entering society.
   - CRD
   - OO

Initiative B | Develop Best Practices Based On Community Priorities

1. Initiate Senior Lead Officer (SLO) Update Course.
   - Provide SLO Update Training to all SLOs city-wide.
   - Refine the curriculum for the next twoday cycle of SLO Update School.
   - CRD
   - PSTB
   - CPPG
Initiative B | Develop Best Practices Based on Community Priorities (cont)

2. Integrate Digital Media Section into Media Relations Division to expand reach of messaging and communications.
   - Develop a comprehensive Department-wide social media policy, increase and expand video content, and overhaul website to create a more user-friendly experience.
   - Explore new digital platforms to message LAPD’s commitment to Authenticity, Context, and Empathy.
   - Create a communication protocol between Digital Media Section officers and the Public Information Officer during critical incidents.
   - Analyze the success of Department-wide social media experience.
   - Evaluate and expand new digital platforms to message LAPD’s commitment to Authenticity, Context, and Empathy.
   - Expand partnerships between Digital Media Section officers and the Public Information Officer for critical incidents.
   - PCG
   - CRD
   - MRD

3. Utilize various digital capabilities to enhance community awareness regarding crime trends surrounding CompStat.
   - Develop education campaign, using video, social media, and public gatherings to highlight crime reduction and community engagement efforts.
   - Invite traditional media outlets to observe CompStat and our process of evaluating crime.
   - Evaluate the effectiveness of the digital media campaign.
   - Expand media participation to observe CompStat quarterly.
   - PCG
   - CRD
   - MRD

Initiative C | Continue to Develop Innovative Youth Programs

1. Enhance the Cadet Leadership Program through additional cadet posts and contemporary lesson plans.
   - Identify additional colleges/universities to host cadet posts.
   - Continue partnering with the Los Angeles Fire Department (LAFD) Cadets and Los Angeles Sheriff’s Department (LASD) Explorers.
   - Identify external partners with expertise in such areas as nutrition, trauma, wellness, and sustainability to present lessons at the Cadet Leadership Academy.
   - Expand the Cadet Leadership Program to at least one college or university.
   - Continue expansion of the partnership with LAFD and LASD cadets.
   - Deliver lessons at the Cadet Leadership Academy.
   - YPU
   - CPPG
   - OO
Initiative C | Continue to Develop Innovative Youth Programs (cont)

2. Create standardized guidelines for all Department-sponsored youth programs.

- Develop and distribute a Youth Programs Manual.
- Develop standardized Youth Services Officer training curriculum.
- Develop best practices in recruitment efforts to increase youth participation in Department-sponsored youth programs.
- Identify successful Area programs such as Hollenbeck PAL’s “Get It Straight” model, and replicate this model in at least one Area within each bureau.

3. Generate opportunities for youth programs participants and their families.

- Develop an internship program that uses volunteers in the Department’s administrative and detective sections.
- Identify additional Citywide social/recreational activities for youth participants and their families.

- Update Youth Programs Manual as necessary.
- Deliver updated Youth Services Officer training to all officers assigned to a Department-sponsored youth programs.
- Evaluate youth recruitment/participation efforts.
- Expand successful Area programs such as Hollenbeck PAL’s “Get It Straight” model to additional Areas.

- Implement internship program in four geographic Areas.
- Host Citywide social/recreational activities for youth participants and their families to increase community networking, understanding, and peer-support.
Initiative C | Continue to Develop Innovative Youth Programs (cont)

4. Cultivate funding sources to increase Citywide youth participation in educational, vocational, and recreational opportunities.
   - Provide a total of $25,000 in academic scholarships at the Cadet Graduation to students accepted by an accredited college or university.
   - Identify new external partners that provide cadet posts with a source of funding through cadet volunteerism.
   - Increase scholarship amount to $30,000.
   - Expand cadet post volunteer opportunities to generate a source of funding for cadet-related activities.

5. Develop a marketing campaign for all youth programs.
   - Develop a youth media campaign utilizing audio/visual media on screen and in print (bumper stickers).
   - Prominently display youth programs-related information at all Area/divisional front lobies.
   - Produce media campaign components for internal and external promotion and awareness.
   - Refine youth program lobby displays.
STRATEGIC GOAL 3

Improve Traffic Safety

Improving the safety of our roads and highways saves lives, leads to increased mobility, and facilitates greater connectivity and opportunities for social engagement for all Angelenos. By raising public awareness through educational campaigns, we aim to make Los Angeles streets safer for drivers, bicyclists, and pedestrians. Vision Zero will continue as the Department strives to reduce severe and fatal traffic collisions. Sobriety checkpoints and data-driven traffic collision prevention programs will help the Department achieve the objective of promoting traffic safety and awareness while decreasing traffic-related deaths.

American cities are increasingly susceptible to all types of foreign and domestic threats including acts of terrorism and natural disasters. Los Angeles is no exception. Los Angeles spans across more than 500 square miles, and for a city as vast as ours, it is imperative that the police department maintain a level of preparedness and develop resiliency strategies to decrease vulnerabilities. In the event of crisis, our Department will be called upon to not only lead Angelenos to safety but also restore the City to normal. We will continue to expand our comprehensive counter-terrorism and cyber-threat capabilities, and strengthen our internal and external partnerships to enhance preparedness and resiliency. We will provide relevant updated training to ensure that our public safety workforce is prepared with the necessary resources to keep our City functioning and our communities safe in the face of increasing risks. We are committed to reducing risk and harm across the spectrum of public safety threats to protect the environmental, social, and economic prosperity of our City.

STRATEGIC GOAL 5
Strengthen the Workforce

A strong, engaged, and diverse public safety workforce is crucial in achieving our goals to reduce crime, maintain a high degree of community trust, and fight terrorism. To ensure the Department is providing the highest quality service, we will enhance our recruiting efforts to attract the best and the brightest personnel to staff our organization. Besides recruiting new talent, we must continue to invest in our existing employees through training and establishing open lines of communication to address wellness and satisfaction. By empowering our workforce with the essential skills and leadership, the Department will cultivate a workforce capable of addressing contemporary community issues and trends facing the City of Los Angeles now and beyond 2020. An ongoing investment in our workforce can improve and ultimately translate to economic prosperity for the future.

### Initiative A | Maximize Department Resources (cont)

3. Conduct candidate focus surveys to measure diversity outreach efforts.
   - Work with the Mayor’s Office and the Board of Police Commissioners to develop and implement diversity recruitment strategies, i.e. social media portals.
   - Utilize digital apps and relevant social media to recruit qualified candidates from all demographics.
   - Create community outreach programs to increase further diversity recruitment.
   - Measure social media users. Monitor postings and dialogue for effectiveness.

4. Assess vacant positions for current critical needs and continue the expansion of social media portals to reach potential candidates.
   - Monitor sworn and civilian attrition trends and coordinate measured hiring process. Work with City Administrative Officer (CAO) to meet budgetary goals.
   - Strategize new hiring recruitment methods.

### Initiative B | Empower the Workforce

1. Implement Department-wide Use of Force/De-Escalation training.
   - Obtain POST approval of Train the Trainers syllabus and implement training schedule.
   - Train Department personnel.

2. Develop MTA training for bus and rail.
   - Implement a sustainable four-hour block program. Train all officers who work on the bus and the rail.
   - Make program adjustments as necessary.

3. Continue to assess less-lethal force options for officers.
   - Evaluate the 40mm pilot program for approval.
   - Seek additional non-lethal force options for officers.
Our organizational workforce is only as strong as our personnel. By investing in our people, we are investing in our Department and in the City of Los Angeles. Fostering employee wellness can drive job satisfaction and productivity, in addition to creating a more unified, cohesive work environment. We will partner with our employee unions to develop the best ways to care for our workforce, as well as reward our people for innovative ideas that enhance the Department’s performance. Our relationship-based style of policing will extend to a relationship-based style of management. This will be achieved through the establishment of open lines of communication with employees across all levels of the Department to address wellness and satisfaction. The City’s safety and prosperity depends on the commitment and effectiveness of our people.

Initiative B | Partner with Unions on Wellness Issues

1. Use joint Department and Los Angeles Police Protective League (LAPPL) Electronic Bulletin Board project to disseminate quarterly information related to physical and mental well-being.

- Reduce number of work-related injuries related to repetitive motion in patrol divisions.
- Reduce number of stress-related Injured on Duty (IOD) claims.

- Analyze best practices in reduction of work-related injuries.
- Analyze best practices in reduction of stress-related IOD claims.

Initiative C | Solicit and Reward Employee Innovations

1. Promote The Virtual Suggestion Box to gain employee input on Department issues.

- Advertise the Virtual Suggestion Box to solicit anonymous employee ideas for Department improvements.

- Evaluate/improve Virtual Suggestion Box as needed.

- Promote and implement beneficial suggestions and reward employees whose ideas are implemented.

- Evaluate all implemented suggestions for effectiveness.

- Refine videos and bulletins to the Crime Stoppers Website.

- Evaluate the 2016 implemented suggestion of uploading videos and bulletins to the Crime Stoppers website.
STRATEGIC GOAL 7

Mitigate Risk

Reducing harm and risk is critical to achieving our strategic goals for the Department and the City. Department employees will continue to receive training on current issues that challenge law enforcement throughout the country. Providing our officers with the skills to deal with the community will help mitigate Department risk. We will also work to stay proactive in our efforts to minimize workplace injuries, as well as those related to the performance of our daily operations in the field. We will expand upon our existing harm reduction programs, updating these programs regularly to remain on the cutting-edge of emerging risks and harms that can affect our people. Preventative maintenance and training can help ensure the health and wellness of our people and contribute to the overall betterment of the organization.

</thead>
</table>

**Initiative A | Expand Existing Harm Reduction Programs**

1. Reduce harms from worker injury.
   - Partner with Pepperdine University and the University of Southern California (USC) to develop a safety, health, and wellness program.
   - Implement the Fit for Duty/ POLICE WELL science-based wellness program.
   - OCPP RMD
   - PSTB

2. Reduce harms from employee-involved traffic collisions.
   - Implement telematics Department-wide, and train all sworn employees in "Below 100." Continue messaging and seatbelt campaign.
   - Obtain Office of Traffic Safety grant to equip LAPD fleet with Stop Drop [seat gap filler] to reduce driver distraction, and expand training for officers.
   - OCPP RMD
   - PSTD EOD

3. Reduce harms from workplace conflict.
   - Continue presenting “Conflict Resolution for Law Enforcement Personnel” course for supervisors and command staff in partnership with Pepperdine University, and develop a web-based resource for alumni of the aforementioned course.
   - Extend training course to all police officers and civilian personnel.
   - OCPP RMD
   - PSTB
### Initiative A | Expand Existing Harm Reduction Programs (cont)

4. Reduce harms from out-of-policy use of force.

- Implement the LA Police and Community Experience program to build trust and legitimacy.
- Work to secure funding to expand upon the LA Police and Community Experience citywide.

### Initiative B | Enhance Risk Management Initiatives

1. Coordinate with the Personnel Department’s Occupational Safety and Health Division to mitigate the risk of repetitive motion injuries.

- Work with the Personnel Department to fulfill employee requests for ergonomic evaluations of employee workstations.
- Seek funding for necessary ergonomic equipment or workstation modifications.
- Utilize data to identify trends which highlight recurring or frequent problems and find solutions.
- Develop a review process to address the ergonomic evaluation recommendations.
- Identify quantifiable metrics to measure the success of the program.

2. Implement and provide training to Risk Management Coordinators in each Area/division.

- Train Area/division Risk Management Coordinators in four critical areas of responsibility: workplace conflict and environment, use of force, workplace injury, and employee-involved traffic collisions.
- Areas exhibiting high levels of harms, as identified by analysis of data, will have site assessment conducted with the information provided to the commanding officer of the affected Area.

3. Continuous monitoring of Harm Areas through data analysis.

- Obtain data through relevant entities.
- Obtain data through relevant entities and seek to enhance quality of data.

### Initiative C | Establish and Reinforce IT Systems

1. Secure employee identities and Department-issued electronic devices.

- Purchase and implement the use of multi-factor authentication to meet Criminal Justice Information Services (CJIS) requirements.
- Evaluate effectiveness of the new system.

2. Use of cloud solutions to provide effective disaster recovery.

- Migrate an increasing number of applications to the Cloud to ensure >99.99% of system uptime for critical applications.
- Evaluate the system speed with added applications.

STRATEGIC GOAL 8
Maximize Sustainability

The City and the Department remain committed to expanding current sustainability programs while holding employees accountable for more sustainable practices in daily operations. Employees will also be recognized for innovative strategies to reduce overall consumption of natural resources as these ideas create a positive impact on the environment, the economy, and overall workplace efficiency. We recognize our role as leaders within the communities we serve and set the example in reducing our carbon footprint, while emphasizing support for the local economy and expansion of social equity. It is critical that we take individual and collective action in preserving valuable natural resources for future generations while taking the necessary steps to ensure that all Angelenos live in healthy, vibrant, and well-connected neighborhoods with access to safe parks and other public spaces.

</tbody>
</table>

1. Encourage sustainability efforts Department-wide.

- Continue Department-wide rollout of ITB’s Konica-Minolta Secure Print Program to all copy machines in fleet and measure paper usage.
- Utilize bi-annual Divisional Sustainability Officer Forum to raise sustainability program awareness and encourage employees to reduce consumption of natural resources.
- Incorporate sustainability awareness lessons into Cadet Leadership Program.

- Introduce paper usage data as a measure of effectiveness at respective commands during the CompStat evaluation process.
- Expand responsibilities and duties of Divisional Sustainability Officers to meet contemporary sustainability needs.
- Expand lessons to additional youth programs.

COS ITB
FMD CompStat YPU
**Initiative A | Develop Environmental Conservation Efforts (cont)**

2. Establish LAPD Green Team initiatives to reduce water usage, power consumption, and introduce drought tolerant landscaping.
   - Implement landscaping renovations in Area stations with highest potential for water conservation.
   - Install smart meters at eight Department facilities to provide real-time water usage data in an effort to curtail water waste.
   - Evaluate water efficiency of station car washes.
   - Seek funding for remaining Area stations and other facilities to plant drought-resistant landscaping.
   - Expand smart meter program to additional Department facilities and measure program’s effectiveness.
   - Partner with GSD and DWP to implement water sub-meters for garage car washes.

3. Evaluate capacity for solar panel usage.
   - Design and implement a plan to install or retrofit solar panels on 25% of identified properties.
   - Install solar panels on the Motor Transport Division parking structure.

4. Expand deployment of hybrid and EV fleet.
   - Expand the hybrid vehicles to 200 vehicles and electric vehicles to 300.
   - Lease/purchase 200 more hybrid vehicles and 100 battery/electric vehicles.

5. Expand deployment of telematics across fleet operations.
   - Expand telematics in more than 50 vehicles.
   - Expand telematics to all non-black and white vehicles. Integrate telematics systems with CAD system and Palantir in every black and white vehicle.
## Initiative B | Develop Sustainability Programs to Build Equity

**LOS ANGELES a Sustainable City**
Regardless of the size of an organization, its vision and mission are critical factors to its success. Leaders must effectively communicate this key information to all levels, empowering employees to share common goals that help move the organization forward. The Department has developed new goals and milestones for its Strategic Plan, which includes collaboration with outside partners and stakeholders. By partnering with the community and other law enforcement agencies, we can remain transparent, gain insight, share ideas, and promote strategic innovation in our quest for operational excellence. We remain committed to driving accountability at all levels while simultaneously cultivating and rewarding the innovative ideas of our personnel.

### Initiative A | Strengthen CompStat Collaboration

1. Maintain a CompStat User Group to identify improvements in the existing process.
   - Conduct quarterly CompStat User Group meetings and review recommendations for CompStat improvement.
   - Compile effective CompStat analysis products and post on the CompStat website to assist new command officers in CompStat.

2. Maintain a Data Integrity Unit to improve accuracy and clarity of information driving CompStat process.
   - Data Integrity Unit (DIU) to continue ongoing inspections of crime reports to ensure accurate UCR reporting guidelines to reduce error rate.
   - Data Integrity Unit (DIU) to continue training of new command officers, detectives, and others on proper coding of crime reports to ensure accuracy.

STRATEGIC GOAL 10
Leverage Technology

Just as technology is transforming globally, it is also revolutionizing the world of law enforcement. Technological advancements are changing the way police do business when it comes to safety, accountability and crime reduction. Computer software applications and data-driven programs are providing our Department strategies and real-time tools in our quest to proactively tackle crime. Body-worn cameras, mobile devices, and digital in-car video cameras have become prominent tools that have enhanced officers’ performance while generating increased connectivity to the communities they serve. We will expand the use of new technologies that will enhance the Department’s levels of efficiency and effectiveness while maintaining its position as a global leader in law enforcement best practices.
